HARROLD'S PANSY GARDENS and GREENHOUSES

Wholesale Seeds, Bulbs and Plants

P. O. BOX 29

GRANTS PASS

OREGON

An Extended Harrold Service.

This folder is the first in a new series which we have been planning for a long time. It is our hope to extend the scope of our past trade literature with them so as not only to bring to your attention, stock as it becomes seasonable, but in the near future it is hoped that we may devote a goodly portion of these folders to topics which will be of general interest and value. At the moment publication schedule will be every other month with the intention of getting on a monthly schedule within a few months. In the beginning it may not be possible to cover every name on our files with each issue so we ask that those who want to receive every copy as published, let us know and your name will be placed on a preferred mailing list. We will also welcome any suggestions or short items and trade kinks which might prove of general interest. Byline credits will be given for any such material. Issues will not be released in January as our spring general catalogue will appear that month. The Pansy Annual will as usual appear in late June or July and no issue will be released thereafter until in September.

PANSY PLANTS

In the milder sections of the United States, Pansies make a most desirable winter flowering subject. They will give a nice lot of flowers even where subjected to quite heavy frosts during the winter and once frost is past a very fine display may be depended on early in the season. In these localities NOW is the time to sell and set these.

In more northerly localities, now is a good time to transplant Pansies into cold frames where glass or shading frames will afford light protection during the winter and next spring you'll have that early blooming stock when the demand and price is good. BETTER ORDER THOSE PANSIES TODAY.

Harrold's Pedigreed Strain From Seedling Bed

Each year we grow and ship hundreds of thousands of the finest Pansy plants. Not only are these the finest obtainable in strain quality, but they are the remarkably robust plants that our years of Pansy specialization has taught us to grow. The fall shipping is now under full way and by the time you receive this price list we will be making shipments to any part of the United States.

As we have a very mild winter here, our shipping schedules are interrupted but slightly throughout the winter months. It will be a decided advantage, however, to fill up your sales beds this fall. Not only will this give you a better stock for retail sales than by waiting until late winter or spring; but you will be sure of having the stock when needed. We have not finished a spring shipping schedule in the past ten years that our stock was not exhausted before all our customers had been supplied.

Standard Varieties

This group is available as follows in field grown seedlings only

The selection in this group has been somewhat reduced this year conforming with sales records of the past two seasons. While the selection is not as varied, these are the varieties that have stood up in popularity. See our Annual for descriptions.

250 OF A VARIETY AT THE 1,000 RATE

Less than 250 of a variety will take the 100 price regardless of the quantity of the entire order. The 3,000 price may be applied to orders aggregating 3,000 or more providing no item included in this rate is for less than 1,000 plants.

All our Pansies are grown in open field beds

The shipping weight of Pansy plants will vary a good deal. The reason being that as the various plantings become available there is usually a sharp change in weight. Also, shipping weight will vary widely with the moisture content of the soil at time of digging. We ship all plants bare root, wrapped in a special paper wrapper and Spagnum moss—to assure fresh arrival—soil moisture has a great deal to do with the amount of soil that still clings to the roots. We assure you that shipping weight will be kept as low as conditions of safe delivery will permit

It is because of this rather wide variation of shipping weight that we are unable to quote delivered prices. It is also for this reason as well as lack of safety that parcel post shipment of plants is not advised. Railway Express is just as cheap and much the safest. Also transport charges may be made collect without any additional fees or charges and you pay only the second class rate on the actual number of pounds transported. We do not supply plants in flats.

For a complete description of the Pansy varieties listed in this list please see enclosed folder, or better still the last edition of our Pansy Annual. Free copy gladly supplied if you haven't one.

VIOLA PLANTS

This group of stock is open field grown the same as our Harrold's Pedigreed strain Pansy plants and this results in the same fine plant with heavy roots. Only one size is available which is summer sown just as soon as newly harvested seeds are available. They are a nice size for transplanting and handled the same as Pansy plants they can be brought into uice flower for spring sales.

FLORIST STOCKS

BENCH GROWN PLANTS

DOUBLE GIANTS OF CALIFORNIA

This strain has been a great specialty with us for several years as we were one of the first seed specialists to recognize their value. We stock only the original Macdonald strain of seeds and these plants are of course grown from them. If you have not already done so, you should give these a trial; whether you use these plants or let us supply you with seeds to plant.

THE REDWOODS. A good blood red.	.80
YOSEMITE. Rose. A very popular color.	.80
DOUBLE GIANTS OF CALIFORNIA, SUPERB MIXED.	.80

EARLY COLONIAL

A new race of Stocks. Tall and exclusively branching, they do not produce a terminal spike but branch from the base; producing 8 to 10 spikes 30" long with a plant spread of about 20". These flower two weeks earlier than the perpetual branching types. The florets are double and about 2" in diameter. Doubleness of plants is about 70%. We highly recommend these.

VARIETY	Price per 100
MAYFLOWER. Fine rose red.	\$1.25
PURITAN. Glowing pure white.	1.25

SUPER GIANT IMPERIAL

A giant race of Imperial, similar to Improved Bismarck in type. Flowers are large and well spaced on long spikes. Doubleness is excellent. Recommended for greenhouse culture.

VARIETY	Price per 100
BLUSH PINK. As named	\$ .80
DARK BLUE. Also as named.	.80
ROSE CHARM. Rich deep rose.	.80
ROSELIGHT. Glowing rose pink.	.80

IMPROVED BISMARCK

Early and with a high percentage of doubles, these are the standard branching variety so much used for both forcing and bedding.

VARIETY	Price per 100
ANTIQUE COPPER. Coppery red.	\$ .70
BLK'S PRIDE. Royal purple.	.70
GOLDEN ROSE. Light golden rose.	.70
LILAC. A rosey lilac lavender of true color.	.70
WHITE WONDER. A fine large white.	.70
IMPROVED BISMARCK FANCY FLORIST BLEND. Mixed.	.70

SNAPDRAGON PLANTS

FLORISTS' GREENHOUSE VARIETIES

Rust Resistant SUPER MAJESTIC

Plants 16" to 20" high. We like these for outdoor bedding because of their close flower placement, large flower heads and moderately low growth. Usually they require no staking and make a very nice outdoor cut flower in southern States.

VARIETY	Price per — 100
AUTUMN GLOW: Old rose suffused amber.	\$ .80
DAINTY: Delicate soft pink. Fine for cutting.	.80
HARMONY SHADES: Terra cotta yellow.	.80

DELPHINIUM PLANTS

These Delphinium plants have been planted immediately upon arrival of the 1940 crop seeds and having been grown in sandy loam soil, they are nice plants that should bloom early next summer if given half a chance. In southern localities we recommend planting right out in the garden. In the north they should be potted up or transplanted in glass covered cold frames. They will make nice spring sales stock if potted and carried in a cool greenhouse until spring.

Vatterle & Reinelt's Original PACIFIC GIANTS

This exquisite group of stock has developed a wide popularity in a very short space of time and we believe that this is entirely deserved. The more we work with this group the better we like it. The form and coloring is the grandest ever offered in Delphiniums and its resistance to mildew makes it most valuable where this trouble is experienced. Florets are of grand size and texture, and the flower spikes are stately in form. In fact there is more beauty and practical value in this group than any other Delphinium we know of today.

We have probably one of the most complete assortments of these varieties available at wholesale today. In fact this offer includes all V. & R., varieties available from 1940 series seeds. Our stock is not inexhaustible, however, and for this reason it is advisable that we have your order for these soon. We don't expect available stocks in some varieties to last long. CONSIDER YOUR NEEDS TODAY.

PERENNIAL PLANTS 1940 Planting

These are recommended to the southern grower and gardener for planting out in the open garden now. In localities where the weather is severe, they may be bedded or potted in a cool or cold greenhouse, cold frame or protected bed—to grow into stock for spring sale. These are just a nice size for transplanting or potting and we sell thousands of them each spring to our own retail customers for garden planting.

PETUNIA SEEDS CONTINUED IN NEXT COLUMN				
It should be remembered this year that the war conditions in Europe and Asia has caused some rather far reaching conditions in the seed and bulb trade. Many items are disappearing from the market while others; even though American grown, are not in sufficient supply to meet the demand. Because of these conditions it is highly advisable that you cover your needs early, giving time to change planting schedules in case of exhaustion in items wanted.				

Petunia Seeds continued				
GIANTS OF CALIFORNIA				
This group is possibly the most popular of the large flowering Petunias for both pot and bedding stock where separate colors are not required.				
VARIETY	Price per 1/28 oz.	1/4 oz.	1/2 oz.	1 oz.
<b>BODGER'S NEW SUPREME:</b> This is without doubt, the finest of this group. It is medium tall in growth—about 15"—but its very large ruffled flowers and outstanding color range; mostly pink and rose shades makes this a must have variety. ....
